AAC 'L' ITEM NSN 6520-01-086-8931

UAs: 174A, 179A

USAMMA POC: Customer Relationship Management 301-619-1288/4301 - DSN 343-1288/4301

UNIT PRICE: \$134.30

System Description: This is a push-button, low-speed, angle, auto-chuck hand piece that offers a quick and convenient changing of burs and instruments. This handpiece provides high torque and smooth performance, compatible with either Rhino or Shorty Motors. Its low-speed push-button head can be used for driving nickel titanium latch-type endodontic files. This head reduces the speed of Rhino or Shorty motors to 250-325 rpm (when a Shorty is used in the 0-6000 rpm range). This head provides high torque.

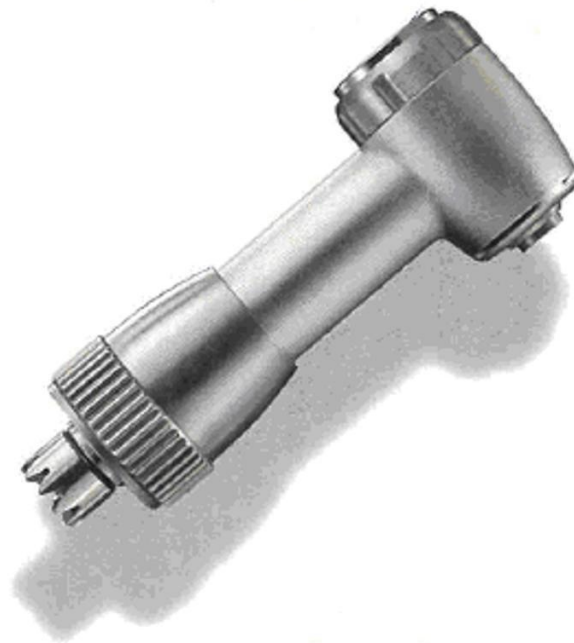

Features:

- Easy chucking of burs and instruments – at the touch of a button.
- Latch-type push-button head takes engine-driven NITI files or other type of latch-type burs and instruments.
- Mate with Midwest 1:1 contra-angle sheaths and 23:1 reduction angle.
- The small head provides excellent visibility of the prep site.
- Push-button latch for handpiece head

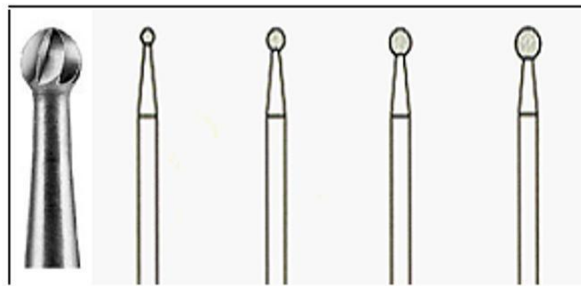

NOTE: THIS HEAD IS USED FOR LATCH BURS DOES NOT HAVE FIBER OPTICS OR WATER.

ATTACHES TO: HANDPIECE DENTAL NONADJUST CONTRA-ANGLE USE W/SHORTY AIR MOTOR
